

THE CANADIAN OVERTIME PROCEDURE

If your main time flag falls:

1. Count the required stones from the bowl.
2. Close the bowl.
3. Reset the clock to 5 minutes - or whatever time period is in force.
4. Play all the overtime stones before the flag falls.
5. When all your stones are finished, repeat the above steps.
6. It is considered good sportsmanship to set the clock for your opponent while the stones are being counted.
7. When passing, give an overtime stone to your opponent and don't forget to press the clock!

If the flag falls when you are in overtime, you lose immediately.
